

<b>KIDS - KVALITETSUTVIKLING I BARNEHAGER/QUALITY DEVELOPMENT IN THE KINDERGARDEN</b>	
<b>Name</b>	
<b>Purpose:</b>	To evaluate the quality of the groups/departments in the kindergarten; to provide educators with a practical tool that can be used to develop and promote the quality of the pedagogical everyday life
<b>Short description:</b>	KIDS is originally developed in Denmark and is intended for Danish kindergartens. Because the program is originally Danish, you will find various references to Danish laws and regulations. In most cases, you will find the same paragraphs in the Norwegian Kindergarten Act. The unique thing about KIDS is that you assess the environment around the child instead of focusing on the individual when working on developmental work
<b>Academic area/skills:</b>	To evaluate the quality of the groups/departments in the kindergarten
<b>Target group:</b>	Kindergarden
<b>Survey method:</b>	Observation
<b>Standardization:</b>	Not stated
<b>Adapted/non-adapted to Norwegian conditions:</b>	Translated into Norwegian
<b>Published:</b>	2017
<b>Author:</b>	C. Ringsmose, G. Kragh-Muller. Translated to Norwegian – H.C. Andreassen
<b>User groups/user qualifications:</b>	Preschool teachers, educators, educational consultants, PPS advisors
